I considered Carole a friend as well as my doctor. I knew she hadn't been feeling well, but she was such a strong lady, I fully expected her to recover. I respected her so much, and trusted her with my whole family's care. I recommended her so many times, to anyone who was looking for a doctor. She was the epitome of good common sense, and I loved her for it. I will miss her so much! We all will. She was a wonderful person, with a wry wit and dry sense of humor. I am so very sorry for your loss.

Dr. Carole Howard, what a wonderful person she was. She delivered Our Daughter back 44 years ago. June 20, 1978. She also took care of My Husband of 47 years 8 months until his passing Jan 28 2022. And all the in between. I will miss her and I am so saddened by her passing. She always talked about Their Children and Grandchildren. Very proud She was. And a Wonderful Doctor and Friend. I am so very sorry for your loss.

*I miss so much. My condolences to your Family and to BAFC.

When I heard of Dr. Carole Howard passing I must have cried at least 2 minutes on the voicemail, she was so real, so down to earth, someone you could truly open your heart to and she understood every word. She was a doctor who cared, who loved people and loved her job. You could tell she have a humongous love for her family her grandchildren she spoke of so genuine with a heart of God. Wisdom would pour out of her so rich. The sound health tips for long life I'll always remember going forward. Dr Howard understood me and help me to understand myself, I believe when God made Dr Carole he broke the mold because there could only be one. I remember praying close to 3 years ago as I returned to go to Rhema Bible Training Center asking God for a woman doctor who would care and understand me, he gave me Dr Carole Howard every bit of what I prayed she was. These are some big shoes to fill but I'm sure she left her orders just like she would give to me. Denise take care of you first remember there's only one. My condolences to your Family and to BAFC

“ Devastated to hear of Carole's passing. So wish her patients had been notified. She had been my doctor for 40+ years. Our mothers worked together for I don't know how many years so that made us kindred spirits of a sort.

She knew me so well and knew how fast I could go from a sore throat to almost pneumonia in a day. She was always available when I needed her.

Whoever takes her place will have much to live up to. Will miss her so.

“ I had been a patient of Dr. Carole about 5 yrs before my aging parents moved here from Kansas 12 years ago. I had asked her to be their Dr. I believe there are angels on earth, and she was one. My parents lived to be over 90, and with their decline, I might have come by to get forms signed, she always would call me in her office and ask me how I was doing. Many times I was barely holding on since all decisions on my folks were up to me. Her personality was so loving and genuinely caring with both my folks. My dad could be stubborn and she would call him on it every time. They were both history buffs, and she would spend the extra time with him. When dad fell and eventually died of a TBI, she was so loving with mom, understanding what it is too lose someone you loved so dearly. I really loved her. I used to ask her if she was going to retire? She told me she still had a kid to put thru college. So few times do you meet a person, that is genuinely so caring. my previous Dr. Was Guy Baldwin who was her Coolidge and friend. She had delivered my 1st grandchild 30 years ago.
Dr. Carole, you will be forever remembered and missed. My heartfelt sympathies to your families, staff and patients

“ Carole and I had many fun times together. She and I graduated together at LaBelle High School. We took piano lessons from Virginia Green. I remember playing duets with Carole at recitals. Malaguena was my favorite. I spent lots of evenings at her house during school. Loved her dog Skippy. And the huge breakfasts we would have before going to school. She will be greatly missed.

“ As a kid in LaBelle in the 60s I thought her and Jimmy were so cute together. It worked out well for them. As a girl it impressed me that she could be a doctor! We didn't have women doctors then in LaBelle. Prayers for all her family.

“ *What a wonderful, loving doctor and person we have lost. Dr. Carole was always so caring and compassionate when she'd walk in the room. Always with a smile 😊 and a little bounce in her step. She cared for our family for the past 28 years. She got us through many scary times as well as rejoicing in the good times. She loved her family, being a doctor, her patients, staff and especially LIFE. Our heart goes out to all who knew and loved her you're in our prayers.

“ Dr. Carole was more than my doctor. She was my dear friend. For 33+ years she looked after me and my family - she delivered 4 of my six children, and took very good care of us all these years. I could call her at any hour and she was always there for me, medically, mentally, emotionally, a shoulder to cry on when needed, and occasionally handing out a chastening/reprimand when necessary.

She was more than could ever be expressed in a few words here. We love her, very much adored her, and will greatly miss her, and at the same time we rejoice knowing that we will see her again. Praying for strength, peace, and comfort for her family.

“ Dr. Carole has taken care of me and my family since 1989. She provided my prenatal care for all 3 children and delivered my first and last-born herself. I could call and she would work any of us in anytime we needed her. She took care of so many and her energy was amazing. My family and I will always hold the memories of her in our hearts. She took care of so many, her legacy will live on for lifetimes to come. Sending prayers of peace and healing for her family, colleagues and patients. May she Rest In Peace in the arms of our Heavenly Father. I imagine that her long-awaited reunion with her late husband, Dr. James Howard, to be magnificent. We love you Dr. Carole, thank you for all the years of caring and sharing in our lives.

Dr. Carole will be so very missed. She not only helped me for the last 15 years medically with my many complications but was there on a personal level as well. She gave me wonderful advice and some even though I didn't want to hear it. She has an ease about her that made you feel comfortable immediately and it was like talking to an old friend, with a vast knowledge. Prayers to her grandchildren and family. She left a legacy for all that knew her.
