“ There are no words to say how much I loved and will miss Connie. I worked with her at the VHA and she was my dearest friend. She always said if she ever needed a Nurse she would choose me because I never let things go until I got my way. She kept me strong while battling breast cancer through out my journey. RIP my dear friend. GOD just got another angel. Sending my love and prayers to her family. My prayers are with you through this journey. She is and always will hold a special place in my heart forever.

“ We have been so fortunate to have Tom and Connie as neighbors and friends. I will miss chats through the fence with Connie when we both happened to be in our backyards at the same time. Sometimes front yard chats too. Connie was genuinely one of the nicest people I've ever known. I will miss my friend. Our thoughts and prayers are with Connie's family.

“ *So very sorry for the loss. I only knew her professionally, but what an asset she was. I'm sure she was just as lovely outside the workplace as she was in her career. Peaceful thoughts to the family and friends.. May comfort be found in the impact she had on those who crossed her path.*

Energy can never be destroyed.. Remember that. She's present, in some form.

Rest in peace love.

“ *I worked with Connie at the VA in Muskogee. I met her as soon as she came from Iron Mountain. She filled a former job of mine so I got to spend a lot of time with her training her and helping with issues. She was so kind and funny. It always made my day to see her at the facility and hear her laugh. I will sure miss her. Prayers for her family. She always told happy stores about all of you and was very proud of her family.*

“ I met Connie at Maranatha church in Kingsford. She was always upbeat, friendly, smiling, offering input into the women’s grouping. When she moved, it was hard to see her go. She kept in touch via Facebook and Messenger. Whenever I would post a positive comment, she would reply how glad she was that I had been blessed in that way. If it was a sad or tough issue I was dealing with, she’d offer words of encouragement and prayers. I will miss her and her gentle and powerful ways. I offer my condolences to Tom and family. Her husband and family were so dear to her. I remember one Sunday Connie spoke of this pothole Tom would always hit on the way to church. One Sunday he avoided the pothole, rather than responding with a “finally”, she clapped her hands and said how wonderful it was for him to avoid that pothole. She said that he avoided it from that Sunday forward. 😊 God’s peace Susie Iverson

Connie and I were paired to create a new computer program and she was brand new at her position. I am not the most patient. It was an unenviable combination. It didn't go well but Connie would not let it go. She truly wanted it to be right and that's what her goal was. Like white in rice she stuck with it no matter how many gyrations or changes were made. The end product for the app was, of course, exactly what I needed. But what I learned from Connie was more important- how to be more patient and more calm in the face of challenges. Connie and I went on to other challenges but they were all better because Connie helped me personally more than just completing the projects. I was honored when Connie asked me for advice on an important subject months later. We had several positive talks and I always left those meetings as a better person - even though I was there purportedly to help her! The world lost an angel. A beautiful smiling, representative of the best - Heaven got a winner when Connie joined the Angels last Friday.
