“ Tiger was a great friend Ive known since childhood. Always had fun together. Watched a lot of great movies & concerts together. He was caring & would help you with anything. Great times playing pool & swimming in his pool out back. Ill miss him & his great smile & sarcasm. He was a great friend.

Dan Milnor - September 21, 2018 at 09:12 PM

PW

“ Worked with Ken for many, many years at SMC. He was always kind and compassionate with every patient. He was equally kind and supportive of the people he worked with. He had the warmest smile on the planet and he embodied how a christian should reflect Christ through is every action. He will be missed by all who knew him. My sincerest sympathy to all his family and friends. Thank you Ken for being a part of my life at SMC. I will see you on the other side friend.

Patti Wisler - July 14, 2017 at 12:02 PM

JW

“ I got to spend 6 years with Ken working at SMC as the CT/MRI orderly. Ken was the most caring person I knew. He treated every patient like they were his family in the CT/MRI scanner. He worked very hard to try to get the best pictures possible not just for the Radiologist, but for the patient as well. We laughed and we cried together seeing some of the results we saw on young and old alike. One story I remember well was when SMC was upgrading the software on the MRI magnet. The MRI was going to be down for a week or two. We had some down time and Ken wanted us to clean the room with the magnet in it. Wipe it down from head to toe. He always helped me he never made me feel inferior. But we were both in the room cleaning and Ken brought a plastic metal chair to help wipe the MRI table down. He had got to close to the magnet and it pulled the chair out from underneath him. The look on our faces was of complete HORROR. It was one of those moments were you freeze and look at each other for a split second like what just happened? He said Jeff get over here and help me pull it off. We pulled it away and didn't break anything.I, but we were so scared and laughed so hard after we knew everything was going to be okay. I wish I had a camera in that room that day so you could have seen the look on our faces when it happened. That's what I will remember about Ken! The great times we had in those rooms behind that brown wooden door. Love you Ken.

“ *The world is a sadder place today, it lost Tiger. It will miss the caring, compassionate, generosity, loving, honesty, forgiving and loving of a man that was always there for friends and family alike. Always smiling and wanting to know how you were and if he could help. We will miss going to the lake, playing catch with his nephews, playing ping pong and pool. We will miss the conviction that he had for all that he believed and his love for everyone that touched his life. Yes the world is a sadder place today for the loss of our beloved Tiger but HEAVEN is celebrating the arrival of our beloved brother and now they have a Tiger. Rest easy brother and say hello to Bootsie.*

“ My little Brother Tiger was the kindest most empathetic person I ever knew. He always put other's needs, feelings and situations ahead of his. He was naturally very intelligent and witty, and his awesome sense of humor made even the tough challenging situations that life throws at you humorous and more bearable. He was accepted into Radiology school, even though he was older and only had a G.E.D.! He finished First in his class even though he worked nights often until 2am delivering Domino's Pizza's and had to have surgery to remove his spleen due to Hemolytic Anemia! When he graduated the 2 year program, Tiger had letters of reference from all the top Radiologist's in the state of Oklahoma, and could have worked anywhere, but he loved Stillwater Medical Center, and living in a college town and playing Tennis with me against the Japanese students from 10pm until 2am in the morning at OSU! We would ride our bikes 5 miles to the courts with our rackets and water jugs and stay until our opponents had left. We would go to the lake and ride bikes with my then Fiance Susan. Tiger loved helping Susan stay up all night writing and editing her many college term papers! He went to OSU vicariously through Susan! We would tease each other about whom had the easier job, me as a career firefighter or him as a Radiology MRI/Cat Scan tech. I would drop in on him after we had delivered a patient to SMC, and he would be kindly reassuring his patients in the "Tube", that they were doing great, and we were almost done, just relax. I believe those days living together were the happiest days of his life! One of my favorite "Tiger Stories", was when I was weed eating on a very hot July day just before we both had to go to work, I unplugged the Hot Wire (to keep my Rottweiler Klaus from breaking down the fence), and when I was busy, Tiger plugged it back in! I reached down to re-attach the wire at the gate and got a painful ZAP surprise!!! I looked up at the Kitchen window and Tiger was Laughing very hard at my getting Zapped!!! I went Berzerk!(not known for my patience haha!) I broke the patio door and we had a Brother vs Brother battle Royale!!! When it was over we both had toothpaste, peanutbutter in our hair, and multiple marks with several majic markers all over our faces and arms!! I made a star on his forehead,

*and he used a Buff Puff to remove it before his shower.....However, it made a big Red Star on his forehead! I said good job Comrade Gorbechav! haha!! We both went to work looking very weird!! When I walked into Fire Station #2, my Captain Calvin Nichols simply said, "I don't even want to know! Get your butt cleaned up and ready for duty!"haha!!!*

*That is the kind of fun/love only a Brother and Sister can really understand!*

*I have been praying for the last two years for the LORD to end his suffering, with a new Liver or eternal life with the LORD! I give all praise and thanks to our LORD for taking Tiger to Heaven to be with Mom and Dad! I know he is now happy with a perfect body and no more tears or suffering!!! I was blessed to have such a wonderful loving Brother and I am looking forward to the time we will all be together for eternity with the LORD!*

*C.S. Lewis wrote, "On earth we ask Why?, but in Heaven we will say Of Course!"*

*As you remember Tiger, have the Peace that comes with knowing he is healthy and happy with his Mother and Father in Heaven! I pray everyone whom reads this tribute to Tiger will Trust Christ for their eternal salvation by simply choosing to accept the Free Gift of salvation from our LORD, Ephesians 2:8-9!!!!*

*In Christ, Steve*

“ I worked with Ken for a few years at Stillwater Medical Center in the Radiology Department where I am a department assistant. It was my first few years there and his last few. I liked him immediately and he was kind and always helpful and went out of his way to educate me, a newbie to the medical field. I knew he was very well liked by his coworkers and everyone from all departments but didn't realize just how deeply Ken had touched everyone there until I was blessed to help organize a benefit auction for Ken just before he had to quit work. The outpouring of love and generosity from Ken's friends and coworkers was unbelievable and a testament to just how much Ken had touched the lives of all who he knew. I considered it a blessing to see first hand and got to know Ken better thru seeing his friends support one they so obviously loved so much and that he had loved also.

*I'm thankful to have gotten to know Ken and pray for his family and friends who will surely miss him dearly.*

“ Just a few of the wonderful memories I have of Tiger are going to the lake where he and his brother Steve (my husband and brother to Vicki and Jimmy) would do everything in their power to throw each other off the tube as each of them took turns driving the boat, staying up late into the morning as he helped me write my college papers, riding bikes for hours, trimming his bangs to look perfect as he stuck his lips out, lifting weights before going to the lake, tanning in the back yard with a spray bottle of water close by, listening to the Black Crowe and singing in the shower, late night trips to get fast food with Steve and me..making sure not to forget his Cherry turnover, cooking the best spaghetti and steaks ever, taking Steve to the Dr. When he broke his collar bone, calling our dogs "freaks" because they followed him around, being so sweet to all my family and friends. Wow...he brought so much fun to all of our lives and those he knew. I am so thankful to have had him as a brother-in-law! We will miss him until we meet him again where we can laugh and cut up like old times.

“ Jimmy and Tiger were brothers. Hardly a day went by that they didn't see or call each other. They were more than just brothers, they had a special bond their whole entire lives. They both admired each other's strengths and would tell each other often. They were quick to forgive. Always taking care and looking after each other... These siblings all have a special bond with each other. I am blessed to have had Tiger in my life. I am blessed to be a part of this great family.

“ These are pictures of my brother, Tiger the way I want to remember him he's been fighting a liver disease for years and is now in the final stages in St Francis Hospital. My brothers and sister, Tina and I have released him to the Lord!!! He's no longer eating and on hospice so we don't expect him to make it through the week. He is the most compassionate person I know always taking up for the underdog and always putting people's feelings over popularity or the popular choice if anyone had a need wether physical or financial or just a loving touch or an act of kindness he was always there to help!! He is one of the most Christ like people I know and comes by it naturally and proud to be his brother!!!!

---

**Jimmy T. Snow** - July 11, 2017 at 10:53 AM

VT

“ Tiger was so sweet, so kind showing compassion and love to every single person he ever encountered...he never judged...he always saw the reason someone may act out... he always tried to help by understanding that sometimes bad behavior is because the person has deep pain from life experiences...he lived his life to teach others right from wrong...he dreamed of a world that would be fair to all people...he dreamed of a world of people showing random acts of kindness in their everyday lives...he knew what a difference it would make in this world if everyone would show unconditional love to each other and wanted to love people through their pains in life no matter what they were...he just wanted everyone to feel loved... and live love... as I write this I realize that there is no way to really explain what a passionate teacher type man he was to everyone and how he was passionate to teach others the golden rule to do unto others as they would have others do unto them. As I write this I realize that there's no way to really explain the love that he embodied for everyone... he always thought of each person in every situation and how they might feel about something that was said by another and he was always teaching us to be kind with your words, kind with your actions and have compassion towards others because you never know what someone else has lived through. All he wanted was for everyone to be forgiving and kind and compassionate and love each other to the point that there is no pain and sorrow in this world. As children my brothers and I learned that God is love... It's that simple God is love. Please remember Tiger in the spirit of love compassion and kindness.... Think of Tiger with you as you go through your day and realize that even if you slip up and have a bad day and maybe say a harsh word that he would always try to understand what maybe caused you to do that what pain you might be dealing with and he would love you through your pain. He couldn't bear to leave this earth until he had taught everyone that he loved the importance of bending over backwards to help each other to strive to be the best they can be in every situation always putting others first. He lived this way through every tormenting thing that would come his way via illness or unkind actions by others. It grieved him so that other people could be

*hurtful and be hurting so badly that they would lash out and hurt others... he just wanted everyone to be healed and kind and loving. He worked at Stillwater Medical Center (SMC) for 20 years and the loved ones of the patients he worked with we're so grateful for the care and compassion he would show to their loved ones. Tiger understood that medical situations could be very frightening especially when you don't feel good and you don't know what to expect... he was such a comforter... He was such a teacher... He was such a sweet sweet spirit and I can't continue to ramble on anymore with this because he would want me to stop and be considerate of others knowing that they may not have time to read something this long. I can tell each and every person that reads this or ever hears of Tiger that he would love you no matter what type of person you were no matter what problems you had no matter what race religion political personality ...no matter what he would find a way to love you and help others to learn how to love you also unconditionally. He would want us all to carry-on in this life and not grieve for him but to pay it forward and show acts of kindness in everything we do in every thought we have and watch it transform your life and others lives. Please carry-on in your daily lives thinking of Tiger and his beautiful sweet spirit honoring him by teaching others these things and showing them love through your actions ... anyone reading this please remember that we love you and Jesus loves you. This is Vicki, Tiger's sister...I will post more and please no that I do not mean to bore you or take your time...I strive to teach you of the love that Tiger wanted us all to live with our thoughtd and actions❤️*

“ I had the privilege of growing up with Tiger. Vicki, his sister, and I were best friends. He had a group of friends who were always at the Snow home playing. They were a few years younger than us and always wanted to hang out with us. One hot summer day, I remember driving up to the house and from the street we saw four naked little boys sliding down into their backyard pool. They were calling to us to come and join them because they felt so free! We didn't join them, but I remember how much fun it was to see all of their shenanigans and what their next great adventure would be! They learned at a very early age how to live life to the fullest! I'll miss you Tiger but look forward to a time when I see you on the other side.....

“ I worked with Ken from the time he was in X-Ray School through his career at SMC. He was in my mind the best CT and MRI tech I ever worked with. He was hard working, compassionate, great with patients and staff alike .He made my job as a Radiologist easier because of his work ethic and caring. We had numerous conversations covering a wide range of subjects and ideas. I will miss my friend.

I loved the way Tiger loved his little brother Jimmy. Jimmy and Tiger were more than just brothers. They had a special friendship their whole lives. Never hardly went a day without seeing or calling each other. A true bond that is rare these days.

Tina Snow - July 11, 2017 at 08:47 AM
